FOR IMMEDIATE RELEASE:

NuCentury Herbs Offers Support to Colorado Flood Victims

As a part of their ongoing SHARE THE AIR commitment to community and education, Nu Century Herbs recently donated packets of their herbal respiratory supplement, Resprin, to Donate Boulder, an organization that provides community-organized flood relief for the victims of the recent Colorado floods. Their “act now” grass roots efforts focus on providing assistance to individuals who need help most during these trying times: the elderly, single mothers and the disabled.

Mold is already growing in many structures affected by the flooding. Other environmental hazards, including asbestos and debris dust are also present in the recovery and rebuilding process. Volunteers and staff are told to make sure they wear masks, rubber gloves and rubber boots. Matthew King, Donor Relations/Partnerships contact and Board of Directors Chairman for Donate Boulder asked NuCentury Herbs to help get the word out as well. “What we really need right now are really good respirator masks. All the stores are sold out here. We are also in need of financial contributions.” said Matthew.

Donate Boulder is a project of the Living GREEN Foundation (FEIN: 26-1421917), a not-for-profit 501c3 organization based in Boulder, Colorado. If you wish to learn more about the Donate Boulder, volunteer or offer a donation, please go to: www.donateboulder.org or www.facebook.com/donateboulder

NuCentury Herbs continues to make considerable efforts to educate the media and the public on the health risks of mold exposure and invite everyone to SHARE THE AIR. They have been researching the connection between herbs and wellness for over two decades. Their synergistic formulations are quality produced in the USA with 100% vegetarian, all natural herbal ingredients, GMP Certified and are scientifically standardized for purity and potency.
